The Energy Conservation Club (ECC) of AIMAN College of Arts and Science for Women, Trichy, was inaugurated on **2nd September 2025** at LH-13 in the college campus. The event aimed to create awareness among students about the importance of conserving energy and adopting sustainable practices.

The inauguration began with a warm welcome address, followed by the introduction of the objectives of the club. A total of **35 students and 2 staff members** participated in the program with great enthusiasm. The event was coordinated by **Dr. R. Vasumathi** and **Dr. A. Meharaj Begum**, who highlighted the significance of energy conservation in modern society.

The Principal appreciated and encouraged students to actively participate in the initiatives of the club. The session also included interactive discussions on innovative methods of saving energy both on campus and at home. Students shared creative ideas to minimize wastage and promote sustainable practices.

The program concluded with a **vote of thanks**, expressing gratitude to the management, staff, and students for their active involvement. The inauguration of the Energy Conservation Club marked the beginning of a meaningful journey towards building an eco-conscious campus and inspiring students to become ambassadors of energy conservation.

The *Energy Conservation Club (ECC)* of AIMAN College of Arts and Science for Women, Trichy, organized a **Poster Making Activity** on **12th September 2025** at the college campus. The event aimed to encourage creativity among students while spreading awareness on the theme of **Energy Conservation and Sustainable Practices**.

A total of students enthusiastically participated, showcasing their innovative ideas through colorful posters. The activity highlighted the importance of saving electricity, reducing wastage, and promoting renewable energy sources. Students expressed their thoughts visually with inspiring messages and artistic designs.

The program was coordinated by **Dr. R. Vasumathi** and **Dr. A. Meharaj Begum**, who appreciated the creativity and awareness reflected in the posters. The Principal also commended the efforts of the participants and encouraged them to practice energy conservation in everyday life.

The event concluded successfully with an exhibition of the posters, creating a positive impact on viewers and motivating everyone to adopt sustainable energy habits. The activity not only enhanced students' artistic skills but also deepened their commitment to environmental responsibility.

Report of the Program

National Service Scheme (NSS) BHUMI & Unnat Bharat Abhiyan (UBA)

&

Energy Conservation Club

The **Energy Conservation Club** of **AIMAN College of Arts and Science for Women**, under the banner of **Unnat Bharat Abhiyan (UBA)**, organized a **One Day Outreach Programme on "Awareness on Energy-Saving Techniques"** on **9th December 2025** at **Periyanayaki Chathiram**. The programme commenced at **9:30 a.m.** and was organized with the objective of creating awareness among **school students of 8th, 9th, and 10th standards** about the importance of energy conservation and sustainable living practices.

The outreach programme aimed to educate students on the efficient use of energy, the need to reduce electricity wastage, and the role of renewable energy sources in protecting the environment. The programme began with an introductory session explaining the importance of

energy conservation in daily life. Simple and practical examples were used to help students understand how energy-saving habits can be adopted both at home and in school.

Various **interactive activities** were conducted specially for the school students to enhance their learning experience. A **poster awareness session** was conducted where students identified energy-saving practices such as switching off lights and fans when not in use, using LED bulbs, and conserving natural resources. A **quiz activity** related to energy conservation helped students actively participate and test their understanding. A **group discussion** encouraged students to share ideas on how they could save energy in their classrooms and homes. A **pledge activity** was conducted where students promised to practice energy-saving habits and spread awareness among their peers and family members.

The slogan **"Don't be a watt-waster, be an energy master"** was highlighted throughout the programme to reinforce the message of responsible energy usage. The sessions emphasized the importance of renewable energy sources such as solar and wind energy and their role in sustainable development.

The outreach programme concluded with positive feedback from the participants. It successfully instilled a sense of responsibility among students towards conserving energy and encouraged them to become active contributors to a sustainable and energy-efficient future.

Feedback from the Beneficiaries

The beneficiaries expressed that the programme was highly informative and useful, as it provided simple and practical techniques that they could immediately apply in their homes to reduce energy consumption. They appreciated the clear explanations, visual demonstrations, and interactive discussions, which made the session engaging and easy to understand. Many participants shared that they had not been aware of the impact of small habits such as switching off unused appliances or using energy-efficient bulbs—and felt motivated to adopt these practices. The slogan "Don't be a Watt-Waster, Be an Energy Master" particularly resonated with them, inspiring a sense of responsibility toward energy conservation. Overall, the beneficiaries conveyed that the programme was meaningful and requested more such awareness initiatives in the future.

Club Name	: Energy Conservation Club
Title of the Event	: Power- Down to Power-UP the Planet
Event Date	: 13/12/2025
Total No.of Students Participated	: 50
Timing	: 9.30 AM to 12:30 PM
Location	: Ariyavoor, Tiruchirappalli Dt.
No.Of Beneficiaries	: 50
Sustainable Goal Involved	: Goal 12: Responsible Consumption and Production
Program Coordinators	: Dr. Vasumathi and Dr. Meharaj Begum

Report of the Program

National Service Scheme (NSS) , Unnat Bharat Abhiyan (UBA)

&

Energy Conservation Club

An outreach programme titled **"Power- Down to Power-UP the Planet"** was successfully conducted by the **Energy Conservation Club(ECC)** in association with **Unnat Bharat Abhiyan (UBA)** and **National Service Scheme (NSS)** at **Arivayoor village** on **13/12/2025**. The programme aimed to create awareness among the rural community about the importance of conserving natural resources, particularly water and electrical energy, for sustainable development. A dedicated team of 50 **student volunteers** actively participated in the programme and visited various streets of the village to interact directly with the residents.

During the field visit, the students observed that several common water supply points in the streets were left unattended, causing a significant amount of water to be wasted as it continuously flowed onto the ground. The team explained the harmful consequences of such water wastage, including depletion of water resources and future scarcity. The residents were sensitized to the importance of closing water outlets properly and adopting responsible water usage practices in their daily lives.

In addition to water conservation, the students also created awareness about the efficient use of electrical energy. They explained simple methods to reduce electricity consumption, such as switching off appliances when not in use and using energy-efficient devices. The concept of renewable energy was introduced, with special emphasis on **solar energy systems**. The students clearly explained the advantages of solar energy, including long-term cost savings, reduced dependence on conventional power sources, environmental friendliness, and sustainability.

Overall, the programme played a vital role in educating the villagers about practical conservation measures and the need to protect natural resources. The active interaction between students and residents helped in spreading awareness effectively and encouraged the community to adopt eco-friendly practices, contributing towards a sustainable and energy-efficient future for the coming generations.

Feedback from the Beneficiaries

The beneficiaries of Arivayoor village expressed their sincere appreciation for the outreach programme and described it as highly informative, meaningful, and beneficial. The villagers stated that the direct interaction with the student volunteers helped them clearly understand the importance of conserving water and electrical energy in their day-to-day lives. Many residents acknowledged that they became more aware of the serious consequences of water and energy wastage, which they had previously overlooked.

The awareness sessions on renewable energy, particularly solar energy, were well received by the villagers. They found the explanation of the advantages of solar power such as reduced electricity expenses, environmental friendliness, and long-term sustainability very motivating. The beneficiaries expressed their willingness to adopt energy-saving practices and to make conscious efforts towards protecting natural resources. Overall, the villagers felt that the programme created a positive impact and encouraged them to actively participate in environmental conservation for the benefit of future generations.

On the occasion of National Energy Conservation Day, a pledge-taking activity was conducted on 15th December 2025 at Block II AIMAN College of Arts and Science for Women, Trichy. The objective of the program was to promote awareness about energy conservation and encourage responsible usage of energy among students and staff.

The event was simple and purposeful, focusing solely on administering the Energy Conservation Pledge. The pledge was administered by JAMSHIRA III CS , where all participants collectively affirmed their commitment to:

- Use energy efficiently
- Avoid unnecessary wastage of electricity
- Adopt energy-saving practices in daily life
- Encourage others to conserve energy

The participants repeated the pledge with sincerity, demonstrating their awareness and responsibility towards sustainable energy use. The program concluded shortly after the pledge, successfully reinforcing the importance of conserving energy in everyday life.

The program was coordinated by **Dr. R. Vasumathi** and **Dr. A. Meharaj Begum**, who appreciated the creativity and awareness reflected in the posters. The Principal also commended the efforts of the participants and encouraged them to practice energy conservation in everyday life.
