5. Activity Type : Tree Plantation

ECO Club, AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN organises "World Environmental Day – 2K25" on **05.06.2025.** World Environment Day, celebrated globally on 5th June every year, is an occasion to remind ourselves of the responsibility we hold towards protecting our planet. This year's celebration was conducted with great enthusiasm and awareness among the students. The main focus was encouraging sustainable living, and taking concrete actions towards environmental well-being.

This program motivated the students to adopt eco-friendly habits even small efforts like planting trees can create a significant impact over time. Following the awareness students actively participated in a tree plantation drive held within their surrounding areas. Encouraging students to plant a tree on their surrounding area. Their excitement was visible as they carefully placed the saplings in the soil, watered them, and pledged to take responsibility for their growth. Totally 25 students were actively participated in this program and students sent their photos to the mail id bndvs@aimancollege.edu.in

Activity : 1 - Photo Journalism – AIMAN Through My Lens

About the Activity

- The ECO Club of AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN conducted a creative photo journalism activity titled "AIMAN Through My Lens" on 06.08.2025.
- This initiative was part of the Plant Your Future Campaign, aimed at promoting environmental awareness and student-led storytelling.
- Students were invited to capture photographs that reflected themes of nature, sustainability, and campus greenery.

Objectives

- To foster environmental consciousness through visual media.
- To empower students to narrate eco-themed stories through photography.
- To celebrate the college's natural beauty and green initiatives.

Participation & Selection

- A total of students participated enthusiastically.
- Each entry included a photograph with a caption or short story, submitted via Gmail to bndsi@aimancollege.edu.in.
- Participants were required to mention their Name, Year, and Department.
- Outstanding entries were selected for special recognition based on creativity, relevance, and impact.

Highlights

- The selected photographs captured unique perspectives on sustainability, student interaction with nature, and green campus moments.
- The event amplified the Eco Club's mission to inspire green thinking and responsible action.
- It also laid the foundation for future eco-visual exhibitions and campaigns.

Activity : 2 - Matka Painting

About the Activity

- The ECO Club of AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN conducted a **Matka Painting** on 07.08.2025.
- This initiative was part of the Plant Your Future Campaign, aimed at promoting environmental awareness and student-led storytelling.
- These organizations aim to promote sustainability, creativity, and student-led social engagement through hands-on activities and artistic expression.
- Format: A live painting session where students decorated clay pots (matkas) using natural and sustainable materials.

Objective

- To celebrate traditional art forms while promoting eco-conscious creativity among students.

Participation & Recognition

- A total of students enthusiastically participated in the event.
- Each student showcased their unique artistic vision, blending traditional motifs with eco-friendly themes.
- After careful evaluation by the organizing committee, students were selected for their outstanding creativity and thematic execution.
- These selected participants will be recognized in upcoming college communications and may be invited to contribute to future exhibitions or workshops.

Highlights

- The event fostered appreciation for handcrafted traditions and eco-friendly practices.
- It served as a platform for interdisciplinary engagement, blending art, culture, and sustainability.
- The painted matkas may be displayed in future exhibitions or used in campus beautification efforts.
- The activity aligned with the broader goals of the Plant Your Future Campaign, emphasizing green living and cultural pride.

Activity : 3 - E-Poster Making

About the Activity

- The ECO Club of AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN conducted a **E-Poster Making** on 11.08.2025.
- This initiative was part of the Plant Your Future Campaign, aimed at promoting environmental awareness and student-led storytelling.
- The event invited students to design digital posters that reflect urgent environmental themes such as conservation, climate action, and responsible living.
- These initiatives collectively aim to inspire students to become visual advocates for ecological responsibility and sustainable futures.

Objectives

- To encourage creative digital expression on environmental themes.
- To raise awareness about sustainability through student-led visual campaigns.
- To foster a sense of responsibility and activism among young learners.

Participation & Recognition

- A remarkable students participated in the activity, showcasing their talent and commitment to environmental causes.
- Each participant submitted an original e-poster incorporating messages of eco-consciousness, conservation, and global responsibility.
- The selected posters will be featured in upcoming awareness drives and digital exhibitions.

Highlights

- The event demonstrated the power of digital art as a tool for advocacy.
- Students explored themes such as climate change, plastic reduction, green living, and earth care.
- The activity fostered a vibrant culture of eco-activism through design, encouraging students to become visual storytellers for change.
- The initiative also strengthened collaboration between student clubs and environmental campaigns.

PLANT A TREE ADD A NEW FRIEND IN YOUR LIFE

Planting is the simple yet powerful act of giving life to our earth.
Plantin ttree and plants, we improve air quality, support
Wild life and help climate change.

OBJECTIVE OF PLANTING

1. Increase greenary of earth
2. Purify air by giving oxygen
3. Help and water and bring rain
4. Privide food, fruits and medicine.
5. Give shetler to birds and animals
6. Reduce pollution
7. Reduce Global warming
8. Make the environment beautiful.

BENEFITS OF PLANTING

1. Oxygen production
2. Water cycle regulation
3. Prevention of soil erosion
4. Ground water recharge
5. Air purification
6. Soil quality improvement
7. Bio diversity support

HEALTH RELATED

1. Help in lungs health
2. Boost mental health
3. Immunity strength
4. Encourage physical activity
5. Improve vit D absorption
6. Promote better sleep
7. Lower blood pressure

One step tree can start forest
One step can save the earth
Plan a tree, plant hope

ADVANTAGE

1. Control temperature
2. Reduce noise pollution
3. Reduce stress and anxiety
4. Creates employment
5. Improve aesthetic beauty
6. Promote Eco tourism

Activity : 4 - Pencil Drawing

About the Activity

- The ECO Club of AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN conducted a **Pencil Drawing** on 11.08.2025 at LH 18.
- The event invited students to express their imagination, environmental awareness, and artistic flair through pencil sketches.
- The program was organized by Ms. S. Indhumathi, Assistant Professor, PG Department of Food Service Management and Dietetics, AIMAN COLLEGEOF ARTS AND SCIENCE FOR WOMEN, Tiruchirappalli.

Objectives

- To promote artistic expression rooted in environmental themes.
- To encourage students to visualize sustainability through traditional drawing techniques.
- To provide a platform for creative engagement and interdepartmental participation.

Participation & Recognition

- A total of students participated enthusiastically in the event.
- Each participant submitted an original pencil drawing, many of which reflected themes of nature, conservation, and social responsibility.
- After careful evaluation by the organizing team, students were selected for their outstanding creativity, technique, and thematic relevance.
- The selected entries will be featured in upcoming exhibitions and outreach campaigns.

Highlights

- The event showcased a wide range of artistic interpretations - from abstract environmental concepts to realistic depictions of nature and community life.
- Students demonstrated strong engagement with both the medium and the message, blending technical skill with social awareness.
- The activity strengthened interdisciplinary collaboration and reinforced the college's commitment to creative sustainability education.

Activity : 5 – Wealth out of Waste

About the Activity

- The ECO Club of AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN conducted a **Wealth out of Waste** on 13.08.2025.
- The "Wealth out of Waste" activity was organized to encourage students to utilize discarded and unused materials creatively.
- The program aimed to instill the values of sustainability, innovation, and eco-friendliness by turning waste items into useful and decorative products.
- The activity also served as a platform to spread awareness about recycling and the importance of reducing waste in our daily lives.

Objective

- To promote the concept of "Best out of Waste" among students.
- To cultivate creativity, imagination, and innovative thinking.
- To create awareness about waste management and sustainable living.
- To instill the habit of reusing and recycling among participants.

Participation & Recognition

- The activity witnessed enthusiastic participation from students across different classes.
- They prepared items such as pen holders, wall hangings, paper bags, flower vases, and decorative crafts using old newspapers, plastic bottles, cardboard boxes, fabric scraps, and other recyclable materials.
- The most innovative and eco-friendly creations were recognized, and certificates of appreciation were awarded to encourage the efforts of the students.
- Teachers and judges appreciated the uniqueness and thoughtfulness behind each creation.

Highlights

- Active participation of students with high levels of creativity.
- Wide variety of items displayed showcasing innovative recycling ideas.
- Awareness created about the importance of reducing waste and adopting sustainable practices.
- Recognition and appreciation motivated students to continue practicing waste management in daily life.
- The program successfully conveyed the message that "Waste is not waste until we waste it.

About the Activity

- ECO Club of **AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN** organized *Activity 6 – Green Open Mic* on **14th August 2025 at 11:30 a.m.**
- The Green Open Mic was organized as a creative platform for students to share **environmental messages** through poems, songs, and stories. The activity aimed to spread awareness about environmental protection in an artistic and engaging manner.

Objective

- To create awareness about environmental issues among students.
- To encourage students to use creative expression as a medium for social change.
- To foster responsibility towards nature and sustainable living.

Participation & Recognition

The program witnessed **active participation from students** across different departments. Each performance reflected their concern for nature and sustainability. All participants were appreciated for their creativity and effort in delivering impactful environmental messages.

Highlights

- Students presented **poems, songs, and stories** on themes such as pollution control, water conservation, forest protection, and eco-friendly lifestyles.
- The event created a lively and thought-provoking atmosphere, inspiring everyone to adopt eco-conscious practices.
- The activity was successful in blending **creativity with environmental awareness**, leaving a lasting impact on both participants and audience.

Activity : 7 - Plant a Tree

About the Activity

- The Department of [Your Department Name] of **AIMAN College of Arts and Science for Women** organized *Activity 7 – Plant a Tree* on **15th August 2025**.
- As part of the environmental awareness initiatives, the *Plant a Tree* activity encouraged students to celebrate Independence Day in a meaningful way by contributing to nature. Though the day was a holiday, students actively participated by planting trees in their nearby surroundings.

Objective

- To promote the importance of afforestation and greenery.
- To encourage students to take responsibility for environmental protection.
- To highlight Independence Day with an eco-friendly action.

Participation & Recognition

Students from different departments planted saplings in their homes, neighborhoods, and community spaces. They documented their participation by capturing photos and sharing them through **Gmail** as proof of their contribution. The students were appreciated for their initiative and commitment towards sustainability.

Highlights

- The activity was carried out on **Independence Day (15th August 2025)**, turning the holiday into an opportunity for service to nature.
- Students planted a variety of saplings in their surroundings.
- The documentation through photos showcased their enthusiasm and responsibility.
- The initiative strengthened the bond between students and the environment while spreading the message of eco-consciousness.

Title of the Event	: A Community Home Inspection for Mosquito Breeding Control
Event Date	: 20.08.2025
Total No. of Students Participated	: 65
Timing	: 10.00 AM
Location	: K.Kallikudy
No. of Beneficiaries	: 20
Sustainable Goal Involved	: SDG - 06 Clean Water and Sanitation
Program Coordinators	: Ms.S.INDHUMATHI, Assistant Professor, PG Department of Food Service Management and Dietetics.

Report of the Program

The **Unnat Bharat Abhiyan (UBA)**, **National Service Scheme (NSS)** and **ECO Club** jointly organized **"A Community Home Inspection for Mosquito Breeding Control"** on **20th August 2025** at **K. Kallikudy** with the primary objective of preventing mosquito-borne diseases and promoting clean water and sanitation practices, in accordance with **SDG 06 – Clean Water and Sanitation**.

The programme began at **10.00 AM** with an introductory and orientation session conducted by the Program Coordinator, **Ms. S. Indhumathi**. She addressed the students on the causes

of mosquito breeding, the role of stagnant water in spreading diseases such as dengue, malaria, and chikungunya, and the importance of community participation in mosquito control. Students were trained to identify common breeding sites and to educate households in a safe and responsible manner.

A total of **65 students** actively took part in the programme. The students were divided into small teams and carried out systematic door-to-door inspections in selected areas of K. Kallikudy. During the inspection, students identified potential mosquito breeding sources including uncovered water storage containers, overhead tanks, blocked drains, unused vessels, discarded plastic items, coconut shells, tyres, and flower pots containing stagnant water.

The students interacted with household members and provided clear demonstrations on preventive measures such as emptying and cleaning containers regularly, covering water tanks, ensuring proper drainage, and avoiding accumulation of stagnant water around homes. Awareness was also created on maintaining hygienic surroundings and practicing eco-friendly mosquito control methods, thereby ensuring environmental safety.

Through this community outreach programme, **20 beneficiaries** were directly benefitted by receiving practical guidance on mosquito breeding prevention and clean water management. The activity encouraged residents to take responsibility for regular monitoring of their households and surroundings to prevent mosquito breeding.

The collaborative effort strengthened the bond between the institution and the community while enhancing students' sense of social responsibility and public health awareness.

Overall, the programme was highly effective in spreading awareness, promoting healthy living practices, and supporting sustainable development goals. It successfully contributed to improving environmental hygiene and public health at the community level.

ECO CLUB

Introduction:

Ozone Day is observed every year to create awareness about the importance of protecting the ozone layer. In connection with this day, a Tree Plantation Drive was organized to promote environmental protection and sustainable living. Tree plantation helps in improving air quality, reducing pollution, and maintaining ecological balance.

Objectives:

- To create awareness about the importance of the ozone layer
- To encourage students to participate in tree plantation activities
- To motivate children to develop a habit of planting and caring for trees
- To promote a green and healthy environment

Programme Description:

The Tree Plantation Drive was conducted as part of Ozone Day celebrations. Students actively participated in planting saplings in the selected area. They planted saplings and learned about their benefits. The students also encouraged local children to take part in the plantation activity.

Students explained the importance of trees and the ozone layer to the children in simple words. Children were guided on how to plant saplings properly and how to water and take care of them. This activity helped to create environmental awareness among children at an early age.

Outcome of the Programme:

- Increased awareness about ozone protection and environmental conservation
- Active involvement of students and children in tree plantation
- Development of responsibility towards nature among participants
- Promotion of eco-friendly habits in the community

Report of the Program

Unnat Bharat Abhiyan (UBA), National Service Scheme (NSS) and ECO Club jointly organized a programme titled **"Pledge on Degradable & Biodegradable Waste Management"** on **30.09.2025** at **10.00 AM** at **Panchayat Union Middle School, K. Kallikudy**.

The primary objective of the programme was to create awareness among school students about the importance of proper waste management and the need to segregate degradable and biodegradable waste for environmental sustainability. A total of **63 college students** actively participated in the programme, and **25 school students** were the beneficiaries.

The programme commenced with an awareness session explaining the concepts of degradable and biodegradable waste, their environmental impact, and the importance of responsible waste disposal. To enhance students' understanding and encourage active participation, contact a competitions based on degradable and biodegradable waste management were conducted for the school students.

The students participated enthusiastically in the competitions and awareness on environmental protection. **Prizes were distributed to the winners** to motivate and encourage the students to adopt eco-friendly practices. All participants were appreciated for their involvement.

Following the competitions, a **pledge** was administered to the students, emphasizing practices such as waste segregation, recycling, composting, and minimizing plastic usage in daily life.

The programme contributed to achieving **Sustainable Development Goal (SDG) 12 – Responsible Consumption and Production**, by promoting sustainable waste management practices at the school and community level.

The event was successfully coordinated by **Ms. S. Indhumathi, Assistant Professor, PG Department of Food Service Management and Dietetics**. The programme concluded with positive feedback from the school authorities and students, reinforcing the importance of environmental responsibility and sustainable living.

Report of the Program

Unnat Bharat Abhiyan (UBA), National Service Scheme (NSS) and ECO Club jointly organized a **Rally on National Pollution Control Day** on **04.12.2025** at **10.00 AM** in **K. Kallikudy** with the aim of creating awareness among the local community about pollution control and environmental sustainability.

A total of **68 students** actively participated in the rally and demonstrated strong commitment toward environmental protection. The rally was flagged off from a prominent location in **K. Kallikudy** and covered major streets of the village. Students carried placards and banners

displaying messages such as *"Stop Pollution – Save Nature," "Protect Trees, Protect Life," "Say No to Plastic,"* and *"Clean Environment, Healthy Future."* Through slogans and interactions, the students educated the public on the harmful effects of air, water, soil, and land pollution on human health and biodiversity.

Special emphasis was laid on **Sustainable Development Goal (SDG) 15 – Life on Land**, highlighting the need to conserve terrestrial ecosystems, prevent land degradation, protect wildlife, and promote afforestation. The rally created awareness among **24 beneficiaries**, including local residents and shopkeepers, who showed interest in adopting eco-friendly practices such as proper waste disposal, reduction of plastic usage, tree planting, and maintaining clean surroundings.

The rally also served as a platform for students to develop leadership, communication skills, and social responsibility. The active participation of students reflected their awareness and concern for environmental issues. The programme strengthened the bond between the institution and the community while promoting sustainable environmental practices at the grassroots level.

The event was successfully organized and coordinated by **Ms. S. Indhumathi, Assistant Professor, PG Department of Food Service Management and Dietetics**. The rally concluded with a collective commitment by the participants to follow pollution control measures and to work continuously for a cleaner, greener, and healthier environment.

ECO CLUB

Introduction

The ECO Club organized an outreach programme titled "Nurturing Nature, Enriching Lives" to create environmental awareness among rural people. This program aimed to educate the community about the importance of protecting nature and conserving natural resources for a better and healthy life.

Objectives of the Programme

- To spread awareness about environmental protection
- To educate rural people on conservation of nature
- To encourage eco-friendly practices
- To promote responsibility towards the environment

Programme Details

We visited rural area people and conducted an awareness programme. As part of the outreach activity, pamphlets related to environmental awareness were distributed to the rural people and explained the importance of Environment. The pamphlets contained simple messages about saving trees, conserving water, reducing plastic use, cleanliness, and protecting the environment.

The ECO Club volunteers explained the importance of the environment in easy and simple words so that everyone could understand clearly. They highlighted how nature supports human life and why it should be protected for future generations.

Awareness Activities

The volunteers interacted with the rural people and explained topics such as:

- Importance of tree plantation
- Water conservation
- Avoiding plastic and reducing pollution
- Clean surroundings for good health

The people listened attentively and showed interest in learning about environmental conservation.

Outcome of the Programme

- Rural people gained basic knowledge about environmental conservation
- Awareness about eco-friendly habits was increased
- The programme encouraged people to protect nature
- The outreach activity strengthened community involvement in environmental protection.

Report of the Program

A virtual programme titled **"Careers in Social Sector"** was organized by **AIMAN COLLEGE OF ARTS AND SCIENCE FOR WOMEN** on **22.12.2025** at **12.00 PM** through **Google Meet**. The programme aimed to create awareness among students about diverse career opportunities available in the social sector and to encourage them to pursue meaningful and socially responsible professions.

The session was led by **Ms. Madhumita Mukherjee, Manager – Placement, ISDM**, who delivered an informative and engaging talk on the scope of the social sector, emerging job

roles, and the importance of skill-based education. She explained various career pathways such as development management, public policy, social entrepreneurship, NGOs, CSR initiatives, and research-based roles. The resource person also highlighted the competencies required to succeed in the sector, including leadership, communication, field exposure, adaptability, and ethical commitment.

Ms. Madhumita Mukherjee emphasized how careers in the social sector contribute directly to national development and align with **Sustainable Development Goal 08 – Decent Work and Economic Growth**. She encouraged students to explore higher education options, internships, fellowships, and placement opportunities offered by reputed institutions like ISDM. The session included real-life examples and success stories, which motivated students to consider impactful career choices.

A total of **88 students** participated actively in the virtual programme. The interactive question-and-answer session enabled students to clarify their doubts regarding eligibility, career growth, and placement prospects. The programme was well received, and participants expressed appreciation for the clarity and guidance provided.

The programme was successfully coordinated by **Mrs. Jannathul Firdows, Assistant Professor, PG Department of English**, and **Ms. S. Indhumathi, Assistant Professor, PG Department of Food Service Management and Dietetics**. The virtual programme concluded with a vote of thanks, marking a meaningful and informative learning experience for the participants.

Title of the Event	: A Awareness on World Water Day – Every Drop Counts
Event Date	: 23.03.2026
Total No. of Students Participated	: 70
Timing	: 10.00 AM
Location	: Inamkulathur
No. of Beneficiaries	: 28
Sustainable Goal Involved	: SDG - 06 Clean Water and Sanitation
Program Coordinators	: Ms.S.INDHUMATHI, Assistant Professor, PG Department of Food Service Management and Dietetics.

Report of the Program

Unnat Bharat Abhiyan (UBA), National Service Scheme (NSS) and ECO Club jointly organized an awareness programme titled **"World Water Day – Every Drop Counts"** on **23.03.2026** at **10.00 AM** in **Inamkulathur**, with the objective of sensitizing the community about the importance of water conservation and sustainable water management.

A total of **70 students** actively participated in the programme and took initiative in creating awareness among the local residents. The programme benefited **28 community members**,

including households and local residents, who actively engaged with the students during the interaction sessions.

The programme commenced with an introductory talk on the significance of **World Water Day** and the global and local challenges related to water scarcity. Students explained the importance of **clean drinking water and sanitation**, emphasizing the health risks associated with contaminated water and poor hygiene practices. Practical demonstrations and discussions were conducted on effective water conservation methods such as **rainwater harvesting, prevention of water leakage, reuse of grey water, water-efficient household practices, and protection of natural water sources.**

Special emphasis was given to **Sustainable Development Goal (SDG) 06 – Clean Water and Sanitation**, highlighting the need to ensure safe water availability, improve sanitation facilities, and promote hygiene awareness. Students used slogans, charts, and real-life examples to convey the message that **every drop of water is valuable** and should be conserved.

The programme also encouraged community participation by addressing local water-related issues and suggesting feasible solutions. The interactive nature of the programme helped in clearing doubts and motivating beneficiaries to adopt water-saving practices in their daily lives.

The active involvement of students enhanced their leadership, communication skills, and sense of social responsibility. The programme strengthened the bond between the educational institution and the community, contributing to sustainable development at the grassroots level.

The event was effectively organized and coordinated by **Ms. S. Indhumathi, Assistant Professor, PG Department of Food Service Management and Dietetics**. The programme concluded with a positive response from the beneficiaries and a collective commitment to conserve water and practice proper sanitation for a healthier and sustainable future.
