(Affiliated to Bharathidasan University)

Recognized by UGC under section 2(f) and 12(B),

Tiruchirappalli – 620 021.

YOUTH ExNoRa INTERNATIONAL

REPORT 2021-2022

HERBAL GARDENING

The Main Motto of **YOUTH ExNoRa** is to create and protect our **green environment by planting trees** and inculcate **“Plastic Ban”**. It was started-up with the Inauguration of **“HERBAL GARDENING”** inside our college campus on **02.11.2021**. During this warm induction, herbs of great medicinal values like Basil (thulsi), Thick leaved lavender (omam), Chamaecostus cuspidatus (Insulin), Andrographis Paniculata (Nilambu Siriyanangai), Malabar Catmint (Peivirati), Nepalese Allium (Jimbu), Indian Indigo (Neelamari) and Phyllanthus Niruri (keezhanali) were planted by **Dr. Suhashini Ernest, Principal**. Other herbs were planted by ExNoRa staff advisors and program organisers and also by our student ExNoRa.

Planting local herbs in the open space available within the college complex contributes toward beautification of the college, thereby creating positive impression on the students to come to their college daily. Managing open space also allows students to experience firsthand the process of planting and tending a garden as well as the medicinal values of the planted herbs.

Herbal Plants for plantation

Herbal Plants were planted by student ExNoRa
