ACTIVITY 07 - A report on the blood donation camp conducted by
the NSS and YRC

Blood Donation camp was organized by the units of NSS & YRC in our college on 11.12.2018. in college Auditorium. The programme commenced with a formal welcome by Dr.Suhashini Ernest ,Principal ,AIMAN college of Arts and Science for Woman, Trichy. She highlighted the fact that the donated blood would be used for saving the lives of the injured and the sick. Dr.Karuppaiya, M.B.B.S, Chief Guest, Geethanjali Hospital, addressed the gathering and brought out the benefits of blood donation. He also explained that the donor's body usually replaces the liquid part of blood (plasma) within 72 hours after giving blood. It generally takes about 4-8 weeks to regenerate the red blood cells lost during a blood donation. An iron-fortified diet plus daily iron tablets can help rebuild a donor's red blood supply. Hence the awareness on blood donation squashed the wrong ideas that donation may weaken the donors.

The physical arrangements for blood donation and blood typing were made in auditorium. A team comprising a doctor, nurses and technicians from Geethanjali Hospital and Friends Blood Bank, Trichy, all 12 in number, were in charge of blood collection and typing. Out of 25 volunteers, 20 were fit to donate blood and 20 units of blood was collected to be used for the needy.

The team also handed over the certificates to the blood donors and thanked them for the service rendered. The camp was a great success and of service to society.
