ICT ACADEMY

One Week Certificate Course on Digital Teaching Techniques

The world is changing all around us and we need to adapt to survive. The COVID-19 pandemic has resulted in internet gaining a major role in remote working, online learning, shift to online classes, video streaming and other sudden changes. This also gives an opportunity to strengthen internet connectivity across India for better interaction between students and teachers.

Teachers need to change their traditional teaching methods and become accustomed to evolving technology-centred digital way of teaching. This exclusive course is preparing teachers for the new journey, to help faculty members change their teaching style to meet the demands of this new digital world and help them achieve their teaching goals, motivate students to learn from isolation, promote team work in digital space and assess their knowledge with / without exams or assignments.

This niche short-term certificate course will enable the faculty members to integrate online technologies into teaching and make the challenging activity into something simple by helping choose ethically appropriate digital pedagogy and benefit both students and teachers to achieve excellence in learning. Teachers, on the successful completion of the course can build a Learner Directed Digital Learning environment at institution with ease. In order to educate teachers to adapt the situation our teachers were trained with the help of ICT Academy
