ICTACADEMY

ICT ACADEMY

11.08.2020

Exclusive Virtual Power Seminar on Trends of Future Technologies

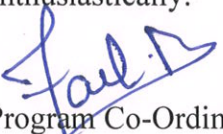

We're in the midst of transformative changes that are altering business and industries in very significant ways. Known as the Fourth Industrial Revolution or Industry 4.0, this revolution is responsible for a tremendous metamorphosis in the way our workplaces and the world works just as was experienced in the previous three revolutions. In the pandemic situation we have reached industry 5.0 & as an academic Institution it our duty to educate students in this field. In order to educate them AIMAAN with ICT Academy organized an exclusive Virtual Power Seminar on the 11th of August 2020 between 11.00 am to 12.30 pm. The speaker of the day was Mrs.Julie Krubavathi , Senior Manager – HR , EC-Group International.

She explained in detail about all revolutions beginning from 1770s, the First Industrial Revolution ushered in mechanization. One hundred years later, the Second Industrial Revolution brought electricity, mass production, and assembly lines. It was the Third Industrial Revolution that introduced computers and automation. As we descend more deeply into the new world of Industry 4.0, smart factories, connected machines, and intelligent robots are not only changing our workplaces but also professional functions such as marketing.

From a marketing perspective, she explained four key technological developments that are underpinning the changes. They are:

- 1.Big Data**
- 2.Smart Device**
- 3. AI and Machine Learning**
- 4. Virtual, Augmented and Mixed Reality**

100 Students participated and were benefitted. The event organizers Ms.B.Farhan & Mr.Allan Joy thanked the Guest Speaker & appreciated students who attended the meeting enthusiastically.
