Intellectual property right (IPR) is the rights granted to the creators of intellectual property and include copyrights, patent, trademark, design rights and some authorities and trade secrets. Rather than protecting possessions, intellectual property law protects exclusive rights to use or reproduce intellectual property (IP). Copyrights protect expression while patents protect inventions and neither protects ideas. The technical session started with an excellent and interactive presentation on “Intellectual Property Rights” by Dr. M. Dorairajan, Former Librarian of St.Joseph College, Trichy and Academic Library Association of President in Tamil Nadu. Dr. M. Dorairajan started by explaining the importance of IPR in the present scenario.

A one-day national-level seminar on Intellectual Property Rights (IPR) was conducted on 13 October 2023 with support from more than 40 Faculty Members and 45 Students at Aiman College of Arts and Science for Women, Trichy. The workshop covered various aspects of IPRs including IP Tools, Patents, Design, Trademarks, Brand building, Copyright, etc.

He briefly explained the IPR methods, uses, and importance of Intellectual Property Rights, Advantages and disadvantages of IPR were discussed.

The talk gave a clear idea about the different rights granted by copyright such as the economic and moral rights, about right of paternity and the right of integrity which comes under moral rights. The topic of infringement of copyright was dealt with in detail.

The seminar on IPR created great awareness among students, research scholars and faculty of AIMAAN College about the important concepts related to IPR, copyrights and patent issues.
