Mr. R.Pravin Dass hosted the three-day workshop providing an excellent opportunity to dive deeper into various aspects of cybersecurity. Dr.N.Murugeswari Director(i/c) & Head, Department of Women's Studies, Bharathidasan University welcomed the Resource Person and the members. The main objectives of the workshop was to raise awareness about common cybersecurity threats, educate participants on best practices for securing digital assets, and empower them with knowledge to mitigate cybersecurity risks. Various topics including common cybersecurity threats such as malware, phishing, and ransomware, along with real-world examples were given to illustrate their impact. The best practices in cybersecurity were discussed, including password management, software updates, data encryption, and Multi-Factor Authentication (MFA). Participants gained insights into effective strategies for network security, endpoint security, data protection, and privacy compliance.

The workshop included interactive exercises and demonstrations, such as phishing simulations and vulnerability assessments, to provide hands-on learning experiences. Live demonstrations of cybersecurity tools and techniques were conducted to showcase practical implementation. Feedback from participants was overwhelmingly positive, with many expressing increased awareness and confidence in dealing with cybersecurity challenges. Based on the workshop's success, it is recommended to conduct similar cybersecurity awareness programs regularly to keep participants and students updated on evolving threats and countermeasures. The session also explained about the certificate courses in cybersecurity which is recommended further to enhance the participants' skills and knowledge in this critical domain. In conclusion, the cybersecurity workshop served as a valuable platform for educating participants and fostering a culture of cybersecurity awareness and preparedness. Dr.S.Umamaheswari Assistant professor, Dept. of Commerce proposed the vote of thanks.
