#### **MORAL VALUES AND QUALITY LIVING - REPORT 2023-24**

On the account of developing Moral values for a quality living, AIMA College of Arts and Science for Women College has a unique tradition of inculcating its students with moral values and social ethics. All staff members are actively involved in this programme and they are assigned with various relevant topics for these classes.

On every week, one hour has been set aside for this purpose. In addition to the weekly moral classes are also held at the College on all first Fridays of the month at 9.00 a.m. All staff and students are advised to take active part in these services. All UG & PG students of our College were involved in this learning.

Moral development is an essential process of overall human development. Moral values play an essential role in any student's life. They help build a positive character with traits such as compassion, respect, kindness and humility. They can make students distinguish between right and wrong. And also help in shaping student's attitude and beliefs towards various aspects of life and provide them with a unique perspective. Moral Values is the study of ethics and values. It impacts critical thinking and assists students in distinguishing between right and wrong.

All our faculty members involved themselves actively in teaching and educating the right moral values for a better living in the society. Equal importance was given in the framing syllabus, organizing classes. Seminars are also run for students to enkindle the fraternal spirit and collegiality among the students.
